TAGETIK AND PWC KICKS-OFF FIRST MULTINATIONAL COMPETENCE CENTER

Strategic partnership takes off to support customers worldwide, further expanding joint programs and market presence

Lucca, Italy – January 12, 2012 – Tagetik, a global provider of enterprise software solutions for Performance Management, Governance, Risk & Compliance and Business Intelligence, and PwC, the number one audit and consultancy firm in Switzerland, today announced the last, amazing outcome of their strategic partnership: the **first, joint international competence center to support customers worldwide**.

“Tagetik is very glad to be working with PwC as our first strategic consulting partner,” says **Bani Brandolini, President International at Tagetik** (www.tagetik.com/company/management/bani-brandolini). “PwC has just set up a ‘Tagetik Competence Center’ based in Zurich, but our strategic relationship spans half a dozen countries throughout Europe and includes North America. This enables us for further commitment and investments in supporting joint projects with customers around the world. During 2011, we have also worked hard to expand our training and certification programs for our partners and PwC has seized as the partner with the highest number of people certified for the budgeting and the consolidation processes.”

"PwC and Tagetik share a partnership based on strong professional and personal commitment. Our leadership in consulting with Tagetik's solution excellence is a win-win on the market. Moreover, the competence center in Switzerland supports the expansion of our Tagetik expertise within the PwC network," adds **Roger Kunz-Brenner, Lead Partner "Finance", PwC Switzerland.**
