Quality Policy

Mod. DIR.01/0

In an extremely competitive market, such as the IT management consultancy, which is constantly searching for innovations, TAGETIK SOFTWARE S.R.L. is the partner of Italian and international big corporates and it bases its growth on its mission, which is to help the CFO and CIO simplify complex business processes through the Tagetik system. The development policy of TAGETIK SOFTWARE S.R.L. is aimed at fully satisfying the clients and the stakeholders, first of all employees and partners which are the basic strength and the driving force of the company. Our commitment is based on the "logic of the future" and it is to acquire new customers who turn to TAGETIK SOFTWARE S.R.L. for an accurate service, for its competence and quality, for its helpfulness as well as for its customised solutions providing high performance in terms of simplification of the process and reduction in management time. We offer employees and partners of TAGETIK SOFTWARE S.R.L. the highest level of transparency trying to achieve the broadest possible agreement on the work management. For this purpose, the clearness of the decision-making roles, the helpfulness and the professionalism in terms of ability to identify the critical activities which require the highest attention and precision will be essential. We believe that the customer satisfaction and the continuous improvement represent the key to a constant growth which guarantees TAGETIK SOFTWARE S.R.L. and all its partners a great future.
