

# CCH TAGETIK REVENUE ACCOUNTING SOLUTION

## GET READY FOR REVENUE RECOGNITION

The new IFRS 15 and ASC 606 revenue standards create a new single comprehensive framework revenue recognition to be applied consistently and improve comparability of financial statements globally. CCH Tagetik provides a reporting hub including data repository, calculation modeling, reporting and disclosures in one easy-to-use solution. CCH Tagetik's Revenue Accounting Solution automates data collection, calculations, postings, reporting and disclosures of revenue from contracts. Following the new five step methodology, CCH Tagetik manages revenue recognition for all your entities, across any geographical location, from any ERP system and facilitates analysis at Group, Segment or Region levels.

## CCH TAGETIK REVENUE ACCOUNTING SOLUTION

### Fast Setup

Pre-configured solution gets you compliant quickly with a lower total cost of ownership (TCO). Out of the box, users get a data repository, a data model that's IFRS 15 compliant, a library of contract data models and pre-configured workflow with a toolset to easily prepare reports and disclosures.

### Single Version of Truth

Creates a single contract data repository to accurately calculate, report and disclose for IFRS 15 & ASC 606 and other reporting requirements. With confidence in your numbers and integration with Qlik Sense and Microsoft BI solutions you can spend more time on analysis and planning.

### Easily Integrated

CCH Tagetik's IFRS solutions are non-disruptive to existing architectures - they integrate with all your systems, including CCH Tagetik CPM and non-CCH Tagetik applications, on premises or on the cloud. CCH Tagetik's ETL capabilities allow you to seamlessly integrate with any source system to import or export data.

### Flexible Modelling

With CCH Tagetik's calculation engine and the power of analytics, you can process and calculate large volumes of data quickly. Flexible modelling allows you to easily extend and maintain the library of contract models, configure calculation logic and rules with a Finance friendly interface to stay compliant.

### Disclosure and Reporting

A single version of data and our Collaborative Office solution makes it easy to report while adhering to disclosure requirements. A drillable financial statement, a pdf board book, a PowerPoint or a submission to regulators; the numbers and narrative are accurate and auditable.

### Process Monitoring

Monitor the whole process with a dashboard that provides the status throughout the submission, adjustment and consolidation process. Using CCH Tagetik's preconfigured workflow and communication tools unify the entire cycle and keep contributors on track and reports on time.

*“Increased transparency, reporting and disclosures require an integrated solution with the analytical toolset to allow you to be compliant and plan for the future.”*

*Marco Van der Kooij  
General Manager CCH Tagetik Benelux & Nordic, CCH Tagetik*
