

Data Discovery Meets Financial Intelligence – A Powerful Combo

“This partnership was facilitated by several very large global companies who are using both Tagetik and Qlik and realized the benefit of a tight integration that takes advantage of the respective strengths of our products.”

“Tagetik and Qlik are committed to offering our mutual customers a standard setting best of breed BI, CPM, and Financial Analytics solution.”

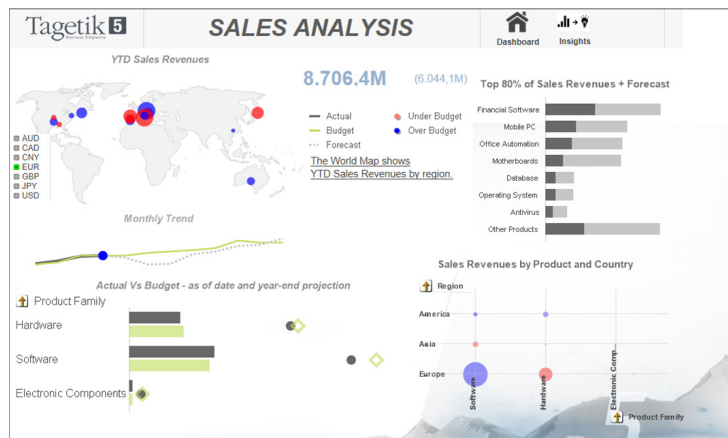

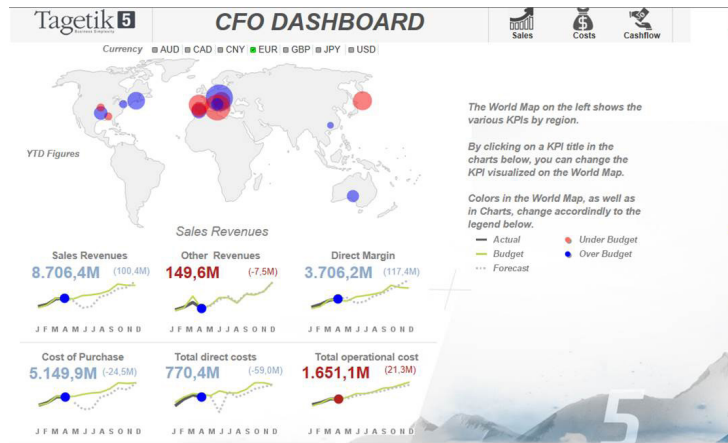

Bani Brandolini
President International
Tagetik

To remain agile in today’s fast-changing world, Finance executives and analysts need information that is timely, relevant and actionable. They need access to visual dashboards that graphically highlight key metrics and trends, and are available anytime, anywhere and from any device.

It is no longer practical to expect executives to know in advance the types of investigation they will need to do to run their business. When ad-hoc analysis and visualization is the need, we have the answer.

Data Discovery Meets Financial Intelligence

Tagetik 5 provides out-of-the-box reporting, dashboarding and pivoting capabilities that meets the needs of most Tagetik users. But when the need is for advanced analytics and visualization there is no reason to reinvent the wheel. The partnership between Qlik®, a leader in data discovery, and Tagetik, a trusted provider of Corporate Performance Management solutions for the Office of Finance, brings the worlds of data discovery and financial intelligence together in a powerful combination.

Unleash Financial Intelligence

“This partnership responds to the growing demand from companies to empower their business with powerful and flexible visual analysis tools to immediately provide relevant information and insight into their business.”

“Thanks to the integration, companies will have greater insight into financial information and metrics that drive decision-making processes, resulting in a significant competitive advantage.”

Rosagrazia Bombini
VP & Managing Director
Qlik

Unleash Financial Intelligence

The integration of Qlik with Tagetik’s unified solution for budgeting, forecasting, financial consolidation, and performance management provides deep financial analytic capabilities to the Office of Finance by combining the powerful financial intelligence that Tagetik is known for with the advanced data discovery and analysis capabilities that are the hallmark of Qlik.

Power

Through the integration, Tagetik users have a powerful, fully integrated option for advanced data analysis, reporting, dashboarding and free-form investigation. With Qlik data discovery, users are not tied to pre-defined reports or hierarchies. You have the flexibility to take the investigation and discovery in any direction you choose to find the answers you need.

Confidence

The combination of Qlik and Tagetik allows companies to extend data discovery on vetted and trusted financial information to more decision-makers in the organization, for more informed, faster decision making. The integration drives more value from your existing investments in Tagetik and/or Qlik.
