

## Strong Integration with SAP:

- ERP
- HANA
- NetWeaver Application

Powered by  
**SAP HANA®**

# The Unified CPM Platform for SAP-Centric Environments

### Tagetik Connector enabled for SAP

- Reduce integration costs by 30% or more with certified SAP integration intuitively designed for finance users
- Automate extracting and mapping data and metadata from SAP ECC FI, and BW tables
- Shorten Consolidation and Reporting processes by spending less time on integration and data validation

### Tagetik powered by SAP HANA

- Use SAP HANA for advanced analytics on Tagetik data
- Deploy Tagetik with SAP HANA as the underlying database
- Combine the deep built-in financial intelligence of Tagetik with the scale and power of SAP HANA

### SAP Portal

- Access Tagetik via single sign-on through SAP Portal
- Incorporate seamlessly Tagetik processes into users' SAP Portal environment

### SAP NetWeaver J2EE Application Server Support

- Take advantage of existing IT infrastructure and skills
- Reduce technical complexity
- Streamline installation and IT support

### Why are SAP-centric companies choosing Tagetik?

Finance wants the best solution for improving and lowering the cost of financial performance processes – budgeting & planning, consolidation, disclosure management and more – with a single, finance-operated solution; but IT has invested heavily in an SAP technology environment and wants a solution that easily fits the current technology environment and future IT strategy.

Tagetik addresses the needs of both Finance and IT with a powerful Financial Performance Platform™ that fits extremely well into existing SAP technology environments. Our established best-of-breed capabilities for addressing complex finance processes and our multipronged SAP integration, including SAP HANA, deliver the solution that best fits business requirements while integrating smoothly into the existing SAP environment.

### Tagetik-SAP integration: improving performance, reducing costs

Our SAP integration gives management the benefits of a world-class, unified CPM solution while avoiding time-consuming maintenance processes that can bog down both finance and IT. It's been proven to reduce the cost of integration by 30% or more. Best of all, with the Tagetik Connector enabled for SAP, it's easy for business users to pull relevant data from multiple SAP tables without needing to know anything about underlying SAP objects or data structures.

Our pre-packaged solutions make integration with SAP ECC FI and SAP BW a "non-factor" in your CPM decision-making process. More and more companies are complementing their investments in SAP for financial transaction processing and powerful analytics with the power of Tagetik for financial process and performance management. Our strong integration with SAP makes it possible to get the best of both worlds – the finance team has a powerful, unified performance management solution from Tagetik that the IT team easily incorporates into their existing SAP environment.

### Hundreds of companies are already taking advantage

The combination of Tagetik and SAP is being used by hundreds of companies around the world, across many industries including Banking, Capital Management, Consumer Products, Entertainment, Insurance, Manufacturing, Professional Sports, Publishing, Services, Telecom and others.

These customers chose us because they determined that Tagetik was the best fit for their specific needs and their specific environment. We invite you to do the same.

### Tagetik Connector enabled for SAP®

Our Tagetik Connector enabled for SAP automates the ETL process for loading financial data including the trial balance, intercompany positions and asset movements as well as metadata including entities, accounts, and other dimensions with an intuitive wizard and pre-built business logic, security, and audit trail. The connector includes pre-built ETL processes for the SAP FI module. The Tagetik Connector enabled for SAP puts the power of SAP integration, and the flexibility to manage it, in the hands of finance users with an easy to use business layer that shields them from the complexity of SAP object structures.

### The Many Benefits of Tagetik Integration with SAP

#### For Finance

- Leverage the power of SAP HANA for real-time financial analytics
- Improve business user experience with single sign-on to SAP portal
- Provide answers to management faster with SAP Visual Intelligence and SAP HANA
- Shorten the data load and financial Consolidation & Reporting process
- Increase finance and IT productivity through automated integration
- Empower finance to own and manage analytical models

#### For IT

- Simplify the IT infrastructure
- Reduce integration consulting costs by up to 30%
- Mitigate ETL risks with built-in business logic and security
- Free up IT resources to work on more value-add activities

### Tagetik integration with SAP HANA

Tagetik is an OEM partner for SAP HANA and leverages HANA for analytics and BI via a pre-built connector that automates the generation of a HANA analytical model based on Tagetik dimensionality, data, and security. This makes it easy for SAP customers that have invested in HANA technology to take full advantage of the powerful analytics capabilities of HANA for financial analytics.

With the release of Tagetik 5, SAP HANA can be the underlying data store as an alternative to Oracle or Microsoft SQL Server. SAP and non-SAP customers alike can choose to run Tagetik on SAP HANA to take advantage of the cutting-edge in-memory technology it delivers. This provides companies that have already invested in SAP HANA with yet another way to extract business value from SAP HANA investment and those who are not yet ready to invest in an enterprise-wide SAP HANA strategy to "test the water" with Tagetik.

Our OEM agreement with SAP has established a cooperation between SAP and Tagetik with a common goal of taking further advantage of the power of SAP HANA technology for the benefit of our customers.

### About Tagetik

Tagetik understands the complex challenges that face the Office of Finance and translates that knowledge into intuitive, enterprise-scale performance management software solutions that drive business results. With Tagetik, companies get the simplicity of the Cloud and the power to unify financial and operational planning; shorten the consolidation and close process; immediately analyze results, model and compare full financial statement impact of business scenarios; adjust strategic plans; seamlessly update rolling forecasts; produce formatted and auditable financial statements and management reports; collaborate on business reviews, and automate disclosure and board reporting. We've built-in the financial intelligence so CFOs, finance and operations executives can orchestrate some or all processes in one place. More than 750 customers across 35 countries count on Tagetik to improve efficiency, reduce risk, save money and deliver results. For more information, visit [www.tagetik.com](http://www.tagetik.com).
